1. This application is in condition for allowance except for the following formal matters:

Please see the following statement.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

2. The disclosure is objected to because of the following informalities:

The numerals in the specification must be corresponding to the numerals indicated in the drawings. In this case, the numerals, such as, "a12" "a13" "a14" "b21" "b22", etc. does not exactly corresponding to numerals "12" in the drawings and is confusing.

Appropriate correction is required.

3. Claims 1-3 are objected to because of the following informalities: the phrase "just could", line 10 in claim 1 is indefinite. Appropriate correction is required.

4. Claims 1-3 would be allowable if amended to overcome the objection.

5. The claims are allowable over the prior art for at least the reason that the prior art fails to reasonably teach or suggest in claim 1 that a reduction device comprising a gear

fixed base, formed from project plastic material, installs with a locating hole, two parallel concave grooves and a right side bilateral gear installing groove cooperates with the left side bilateral gear installing groove on the musical base to be installed in a bilateral gear, and a curve flange, setting on the entrance of each parallel concave groove, parallelizes in a step spur gear as set forth in the claimed combination.
